

ADOLESCENT Services

Treatment Programs Specifically Designed for the **NEEDS OF ADOLESCENTS** and **THEIR FAMILIES**

*Our Adolescent programs are **tailored to meet the needs** of each individual, **focused on solutions**, support and results.*

Alcohol/drug abuse and addiction are prevalent in all age groups, but **adolescents are especially vulnerable to these diseases**. That's why we offer treatment programs specially designed for the specific challenges and needs of adolescents and their families. We recognize that the **success of an adolescent's treatment depends on understanding the emotional, behavioral, environmental and family aspects** of the adolescent's life.

MENTAL HEALTH AND RECOVERY

ASSESSMENT SERVICES

Riveon provides a variety of assessment and screening options to fit your needs and availability. To schedule an appointment for an assessment, please call our **Intake Services Department at 440.989.4900, select option #2.**

OUTPATIENT PROGRAM

Our Outpatient Program is designed to meet the needs of both the adolescent and their family. Treatment involves individual therapy, In-Home Family Sessions and the Adolescent Community Reinforcement Approach (ACRA). ACRA is a comprehensive behavioral program for treating substance abuse related problems, based on the belief that environmental contingencies can play a powerful role in encouraging or discouraging drinking or drug use. It utilizes social, recreational, familial, and vocational re-enforcers to assist adolescents in the recovery process. Through this comprehensive approach we create a safe setting where we can guide adolescents and their families through a process of healing and recovery. **All services are offered in person or tele-health.**

FAMILY PROGRAMMING

Riveon Family Programming is offered as an open-ended educational support group, designed and conducted primarily for parents, adolescents and other family members who are concerned about a loved one's harmful use of alcohol or other drugs. In-home or in-office family services are also available.

AFTERCARE

Our Aftercare Program consists of a step-down model of care that assist adolescents in maintaining their newly established recovery. It helps develop relapse prevention skills and identify community and family support networks. Most importantly, the program shows adolescents how to rebuild family communications and trust.
