

PRIMARY CARE Services

Primary care services focus on prevention, wellness, early detection and treatment of common illnesses and diseases.

Services are provided by a doctor or nurse and other trained medical professionals.

WELLNESS AND PREVENTATIVE HEALTH

- **Routine Check-ups:** Monitor overall health and prevent potential issues.
- **Vaccinations:** Recommended immunizations
- **Disease Management:** Treatment for chronic health conditions.
- **Acute Care:** Timely treatment for minor illnesses or injuries.
- **Diagnostic Screenings:** Blood tests, imaging, early detection.
- **Referral Management:** Help with referrals for specialized care.
- **Timely Access** to dental, behavioral health, and vision services.
- **Care Coordination:** Assistance with arranging supportive care services.
