HELP FOR FAMILY MEMBERS Struggling with a Loved One's Drug Abuse & Addiction

Alcohol/drug abuse and addiction **negatively impacts both the user and those who love them.** Our family education and support groups are for parents, spouses and family members who are concerned about a loved one's harmful use of alcohol and other drugs, **providing a structured, caring environment without fear of judgement or negative feedback.**

EDUCATION & SUPPORT GROUPS

Our moderator-led groups **provide information about alcohol and other drug addiction,** while helping family members in **establishing healthy boundaries and sharing their stories.** The Group is **not** a 12-step self-help group.

YOUR CONCERNS

If you're concerned about a loved one's use of alcohol or other drugs, you're not alone. An estimated 1 in 10 people who use alcohol and as many as 6 out of 10 people who use other drugs develop addiction and dependency disorders.

The stigma associated with addiction often prevents family members from identifying the problem and seeking help. Recognizing the realities of addiction and making healthy choices for themselves can be next to impossible.

MEETINGS ARE FREE, DONATIONS WELCOME
